

Careers Guidance

As students in our Academy, you will receive careers guidance as part of your weekly tutor programmes from years 7 to 13.

This programme is designed to support you in making informed choices about your future career pathway. We will provide you with opportunities to meet with employers, apprenticeship providers and Higher Education Institutions so you can receive a wealth of advice and guidance.

In years 10 and 12, you will participate in a week of work experience which will help you to develop key employability skills and qualities and develop an insight into the world of work.

Impartial careers education and advice

In year 11, you will have a one to one careers interview with our independent careers advisor who will provide impartial advice to support you in your chosen pathway when you leave school.

Websites that can support you

Throughout the programme you will use a variety of different websites that can support you.

These are listed below:

Startpilot: www.startprofile.com
